CREATING INNOVATIVE TRANSFORMATIONS.

At Delta®, our commitment to customers and partners is embodied by our dedication to brand, service and innovation. For decades, our brand has driven consumer demand by studying the ways people use water. Gaining insights into users' unmet needs, we create innovation: stylish products and technologies that transform daily life in simple, meaningful ways. After testing all our creations thoroughly, we stand behind them with service, support and comprehensive warranties (and, just in case, a wide selection of replacement and repair parts).

Touch2O® and Touch2O.xt™ Technology

Touch it on. Touch it off. Touch2O Technology starts and stops water with one tap on the handle or spout—while hands-free Touch2O.xt Technology activates water when hands come within 4" of the faucet.

H2Okinetic® Technology

Sculpts water into a unique wave pattern, giving the feeling of more water, without using more water—plus a dense spray that offers 3x the coverage of a standard shower.

MagnaTite™ Docking

Powerful magnets integrated into the spout and pull-down spray wands of Delta® kitchen faucets keep wands precisely and securely in place when docked.

Temp2O™ Technology

Take the guesswork out before you get in. An easy-to-read LED digital display and background color indicator show the temperature of the water, keeping users safe and comfortable.
